

October 25th - 26th 2018

EVIDENCE-BASED PRACTICES AND JUDICIAL DECISION-MAKING

Evidence-Based Practices (EBP) are policies, practices, and/or interventions that are supported by research. Evidence-based decision making is a disciplined approach to using data and research to inform and guide decision making across the justice system.

The goal of the conference is to promote the use of empirical knowledge and research-supported principles proven to enhance outcomes in **Sentencing, Specialty Courts, Probation, and Pretrial Programming.**
